

## ASX ANNOUNCEMENT

# December 2015 Quarterly Activities Report

31 January 2016

Perth based African focussed explorer Walkabout Resources Ltd (ASX:WKT) is pleased to report its activities in Botswana and Tanzania for the December 2015 quarter.

### Highlights in Review

During the quarter under review, the Company;

- Finalised a maiden drilling campaign at the Lindi Jumbo Graphite Project,
- Intersected and modelled extensive high grade, wide and shallow graphite mineralisation,
- Reported all assays for the RC and Diamond drill program,
- Transported and submitted samples to the Nagrom Metallurgical laboratory,
- Commenced with and subsequently reported a high grade Maiden Inferred JORC Resource,
- Initiated discussions with several potential end-users regarding product testing and specifications.

Subsequent to the Quarter under Review, the Company;

- Commenced with successful metallurgical test work for the drill core material from the project,
- Announced a Maiden JORC Inferred Resource (2012) for the Project which is one of the highest grade resources in Tanzania,
- Finalised the budget for project development to the stage of Mining Licence approval,
- Finalised the schedule for project development to the stage of Mining Licence approval,

Planned activities for the current Quarter;

- Continue with Metallurgical test work as required,
- Commence with environmental and mining licence applications,
- Engage with potential process plant design engineers and establish commencement of study work,
- Negotiate with potential cornerstone investment entities for funding of Lindi Jumbo Graphite Project.

### Lindi Jumbo Graphite Project

During the period under review, the Company received the assays for the drill program conducted at the Lindi Jumbo site in Tanzania. Initial drilling was located on the western target identified by the airborne VTEM geophysical survey on portions of PL 9992/2014, PL 9993/2014 and PL

## ASX ANNOUNCEMENT

9906/2014. Drilling was limited to PL9992/2014 in near proximity to the Nachu Graphite Project being developed which is renowned for its exceptionally high ratio of larger flake sizes.

### Summary of Significant Drill Results

All holes within the Gilbert Arc west flank						
Hole Number	Elevation (RL's)	Current Depth	Graphite From	Total Graphite Intersected	Best Intersection	Widest above 5% TGC
	m	m	m	m	m @ % TGC	m @ % TGC
LJRC001	243	59	13	35	<b>8m @ 22.7</b>	<b>20m @ 12.7</b>
LJRC006	230	67	11	16	<b>4m @ 15.8</b>	<b>16m @ 10.3</b>
LJRC009	228	55	1	46	<b>10m @ 16.6</b>	<b>30m @ 11.8</b>
LJRC010	214	61	7	61	<b>8m @ 36.7</b>	<b>54m @ 12.7</b>
LJRC013	218	70	11	36	<b>5m @ 13.6</b>	<b>34m @ 9.7</b>
LJRC014	234	65	14	24	<b>3m @ 30.9</b>	<b>15m @ 14.1</b>
LJRC015	223	67	13	49	<b>3m @ 31.1</b>	<b>41m @ 11.6</b>
LJRC016	230	51	3	16	<b>6m @ 14.4</b>	<b>7m @ 10.3</b>
LJRC017	224	98	25	73	<b>5m @ 28.3</b>	<b>39m @ 15.0</b>
LJRC021	228	54	1	54	<b>9m @ 13.2</b>	<b>32m @ 9.6</b>
LJDD001	213	70	15	27	<b>6m @ 35.3</b>	<b>20m @ 20.5</b>
LJDD002	224	69	9	56	<b>3m @ 35.1</b>	<b>23m @ 14.4</b>
LJDD003	227	76	1	74	<b>8m @ 15.0</b>	<b>20m @ 12.7</b>

Table 1: Table of all holes drilled in the western flank of the Gilbert Arc anti-form structure.

The RC drilling intersected shallow, wide and high grade graphite across an area designated as the Gilbert Arc and drilling was concentrated across the Gilbert antiformal structure in order to secure adequate coverage for the intended definition of a maiden resource. (see ASX release 5/10/2015)

During the quarter all assays were returned to the Company and reported. Of 23 exploration holes (20 RC and 3 Diamond), 19 were drilled within the Gilbert Arc structure. Of these, 13 were drilled along the western flank of the structure. All 13 of these holes returned wide intersections of very high grade %TGC with visible jumbo flakes and these are summarised in Table 1.

Initial in-house 3D modelling of the high grade zones on the western flank indicated good correlation and continuity of these grade shells on section and along strike between sections. This continuity means that a high grade mining target area can be inferred that should enable a high grade run-of-mine (ROM) product to be delivered to the process plant.

## ASX ANNOUNCEMENT

### Maiden JORC Resource

The Company published a Maiden Inferred JORC Resource subsequent to the period under review. This resource contains a high grade, shallow and accessible core that will assist in providing significant financial and technical benefits to the Project. (See ASX Announcement 19 January 2016)

### Metallurgical Test Work

During the period the Company placed several hundreds of kilograms of graphite drill core at the Nagrom Metallurgical Laboratory in Perth and appointed metallurgical consultant, Mr Dave Pass of Battery Limits Pty Ltd as specialist consultant to the metallurgical testwork program. A test regime of standardised and simple roughing and cleaning flotation achieved excellent recoveries of >98% at a coarse primary grind of P100 at 850µm. A best effort concentrate grade of 95.7% TGC was also achieved and a best effort flake ratio of 83.4% of flakes in the Large and Jumbo categories was achieved on one test, proving that the anticipated flakes sizes are present. Efforts are now directed at achieving the flake size distribution and the high grade concentrate together. (See ASX Announcement 08 January 2016)

Image 1: Lindi Jumbo concentrate being float tested

### Project Development

Walkabout intends to fast-track the project development at Lindi Jumbo to develop a high quality flake graphite mining operation producing between 25,000 and 40,000 tonnes of graphite concentrate annually.

Contact has been initiated with several graphite processing companies and early discussions regarding marketing and test-work have commenced.

The Company is constantly engaging with potential development partners to secure project financing and/or product off-take and mitigate potential market risk.

The Company currently has a 70% earn-in interest over four contiguous exploration licences in the area for a total exploration area of approximately 325 km<sup>2</sup>.

## ASX ANNOUNCEMENT

### Takatokwane Coal, Botswana

At Takatokwane, the Company has published a JORC Inferred Resource (2004) of some 6.9 billion tonnes of thermal coal and has completed an advanced Scoping Study/PFS for the mining and extraction of some of this Resource.

The economic viability of the project requires the construction of a rail line currently under investigation by the Governments of Botswana and Namibia and recovery in international benchmark thermal coal prices. For this reason and until progress is made on these fronts, the Company is not prioritising the project schedule at this time.

Finalisation and optimisation of the advanced Scoping Study/PFS remains ongoing as is further engagement with the joint Botswana and Namibian government agencies responsible for managing the Trans-Kalahari Rail Project.

During the quarter, the Company secured a 2 year extension on licences PL157/2009 and PL160/2009 from the Botswana Government. Walkabout currently has a 40% earning 65% of these licences.

### Corporate

During the quarter co-founding Director of Walkabout Resources, Geoff Wallace retired from his role as Executive Director and Company Secretary. The Company has appointed experienced geologist, Andrew Cunningham as Non-Executive Director.

Details of Walkabout Resources projects are available at the Company's website, [www.wkt.com.au](http://www.wkt.com.au)

**Appendix 5B**  
**Mining exploration entity and oil and gas exploration entity quarterly report**

1.13	Total operating and investing cash flows (brought forward)	(603)	(1,117)
	<b>Cash flows related to financing activities</b>		
1.14	Proceeds from issues of shares, options, etc.	-	987
1.15	Proceeds from sale of forfeited shares	-	-
1.16	Proceeds from borrowings	-	-
1.17	Repayment of borrowings	-	-
1.18	Dividends paid	-	-
1.19	Other – share issue expenses	(6)	(40)
	<b>Net financing cash flows</b>	(6)	(947)
	<b>Net increase (decrease) in cash held</b>	(609)	(170)
1.20	Cash at beginning of quarter/year to date	669	230
1.21	Exchange rate adjustments to item 1.20	-	-
1.22	<b>Cash at end of quarter</b>	60	60

**Payments to directors of the entity, associates of the directors, related entities of the entity and associates of the related entities**

	Current quarter \$A'000	
1.23	Aggregate amount of payments to the parties included in item 1.2	202
1.24	Aggregate amount of loans to the parties included in item 1.10	-

1.25 Explanation necessary for an understanding of the transactions

Item 1.23 includes \$79K PAYG tax on directors deferred salaries, taken in shares in accordance with the “Entitlement Issue Prospectus” announced 9 June 2015.  
Item 1.23 includes Directors Fees, some final entitlements and consultancy payments

**Non-cash financing and investing activities**

2.1 Details of financing and investing transactions which have had a material effect on consolidated assets and liabilities but did not involve cash flows

--

+ See chapter 19 for defined terms.

- 2.2 Details of outlays made by other entities to establish or increase their share in projects in which the reporting entity has an interest

--	--

### Financing facilities available

*Add notes as necessary for an understanding of the position.*

	Amount available \$A'000	Amount used \$A'000
3.1 Loan facilities	-	-
3.2 Credit standby arrangements	-	-

### Estimated cash outflows for next quarter

	\$A'000
4.1 Exploration and evaluation	
4.2 Development	200
4.3 Production	
4.4 Administration	60
<b>Total</b>	<b>260</b>

**Note:** The Company is currently in confidential discussions with entities regarding a cornerstone investment to support project development.

### Reconciliation of cash

Reconciliation of cash at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts is as follows.

	Current quarter \$A'000	Previous quarter \$A'000
5.1 Cash on hand and at bank	60	669
5.2 Deposits at call	-	-
5.3 Bank overdraft	-	-
5.4 Other (provide details)	-	-
<b>Total: cash at end of quarter (item 1.22)</b>	<b>60</b>	<b>669</b>

---

+ See chapter 19 for defined terms.

## Appendix 5B

### Mining exploration entity and oil and gas exploration entity quarterly report

#### Changes in interests in mining tenements and petroleum tenements

	Tenement reference and location	Nature of interest (note (2))	Interest at beginning of quarter	Interest at end of quarter
6.1	Interests in mining tenements and petroleum tenements relinquished, reduced or lapsed			
6.2	Interests in mining tenements and petroleum tenements acquired or increased			

#### Issued and quoted securities at end of current quarter

Description includes rate of interest and any redemption or conversion rights together with prices and dates.

	Total number	Number quoted	Issue price per security (see note 3) (cents)	Amount paid up per security (see note 3) (cents)
7.1	<b>Preference securities</b>			
	<i>(description)</i>			
7.2	Changes during quarter			
	(a) Increases through issues			
	(b) Decreases through returns of capital, buy-backs, redemptions			
7.3	<b>+Ordinary securities</b>	1,378,235,128	1,378,235,128	
7.4	Changes during quarter			
	(a) Increases through issues			
	(b) Decreases through returns of capital, buy-backs			
7.5	<b>+Convertible debt securities</b>			
	<i>(description)</i>			

+ See chapter 19 for defined terms.

7.6	Changes during quarter (a) Increases through issues (b) Decreases through securities matured, converted				
7.7	<b>Options</b> <i>(description and conversion factor)</i>			<i>Exercise price</i>	<i>Expiry date</i>
7.8	Issued during quarter				
7.9	Exercised during quarter				
7.10	Expired during quarter				
7.11	<b>Debentures</b> <i>(totals only)</i>				
7.12	<b>Unsecured notes</b> <i>(totals only)</i>				

## Compliance statement

- 1 This statement has been prepared under accounting policies which comply with accounting standards as defined in the Corporations Act or other standards acceptable to ASX (see note 5).
- 2 This statement does /does not\* (*delete one*) give a true and fair view of the matters disclosed.

## Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.

---

+ See chapter 19 for defined terms.

## Appendix 5B

### Mining exploration entity and oil and gas exploration entity quarterly report

---

- 2 The “Nature of interest” (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
